DETAILED ACTION

Response to Arguments

1. Applicant's rewritten claims 1 and 11 filed 10/13/2004 have been fully considered and they are persuasive.

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: Regarding amended claim 1, the allowability, at least in part, resides in a method of producing an object thermal forming, fails to teach in part a step of scanning a beam of energy over the sheet and the die to form the object. Regarding amended claim 11, the allowability, at least in part, resides in a system for producing an object thermal forming, fails to teach in part a source of energy configured to scan a beam of energy over the sheet and the die to form the object.

Regarding claims 2-10 and 12-20 are allowed for the same reasons stated above.
